Court House

What's Doing in the Temple of Justice Past Week.

At its last meeting, the Fiscal Court received a proposition from the estate of the late C. M. Hanna, the contractor who has been reconstructing pikes in the county, to sell to the county his road building outfit.

This outfit consists of a new 15 h. p. traction engine, combined engine and road-roller, road-grader, water wagon and sprinkling cart, cook house, harrows and plows and other necessary tools for road building. This plant was offered to the county at a very low price, considering the number and condition of the machines.

After considering the matter fully, the court decided to buy the machinery, especially from a report from the County Treasury showed, (as result of strict economy, which has characterized the administration of the public funds during the last year) that they had money enough in the treasury to pay cash.

This purchase puts Madison county in the possession of all the machinery necessary for the reconstruction of turnpike roads after the most modern methods, with the exception of a rock crusher. The court also employed an expert road-builder and machinist to operate this machinery.

The court will this year pursue the same policy that was used last year in selecting the roads upon which this work shall be done.

As soon as it was known that the county had bought this machinery, and was ready to proceed, the citizens along the Barnhill and Taylor's Fork pike, into Round Hill, presented a subscription paper and executed a bond to the county for \$1,000 and asked the county to reconstruct their road; this being the first request, accompanied by the cash, the court agreed that as soon as the Irvine pike was finished, they would commence work on the Barnhill and Taylor's Fork pike. The enterprise of the citizens on this pike is much to be commended, and there will be considerable rivalry among the residents along other pikes to get the next work, after this is finished.

On a final settlement of the 1909 accounts, the Fiscal Court found that they were able, and did pay, \$1015.42 interest on old notes and \$7,185.63 of principal of said notes.

The present Fiscal Court has not borrowed any money, and, by an economical administration of the county's affairs, has been able to settle all its obligations in cash. Then Taylor's Fork pike, into Round Hill, presented a subscription paper and executed a bond to the county for \$1,000 and asked the county to reconstruct their road; this being the first request, accompanied by the cash, the court agreed that as soon as the Irvine pike was finished, they would commence work on the Barnhill and Taylor's Fork pike. The enterprise of the citizens on this pike is much to be commended, and there will be considerable rivalry among the residents along other pikes to get the next work, after this is finished.

There has been several more thousand dollars collected this year for taxes than there was last at this time of the year. About \$8,000 is all remaining unpaid on the tax books and this is slowly coming in. Some of this is good and some will never be collected, but mighty in Sheriff McDuff is making a wonderful record in collecting the public money.

Now is the time to purchase your groceries. Covington & Thorpe will give you a discount of ten per cent. for cash.

Lena Was Here.

Miss Lena Morrow Lewis, a strikingly handsome young woman, representing the cause of "Socialism" was in Richmond Friday evening and spoke at the courthouse on the above subject. On account of her hasty entrance and quick exit, she failed to get a crowd.

Robber Catarrh

Steals Energy and Will Power From Its Victims.

Catarrh robs its victim of energy, some physicians say of will power. That may be the reason why thousands of catarrh sufferers haven't ambition enough to accept his fair and square offer by B.J. Middleton which he makes without any whys and wherefores or red tape of any kind.

He says he guarantees HYOMEI to cure catarrh, acute or chronic, or money back, and that offer is open to every reader of the Climax.

Hyomei is the purest Australian Eucalyptus combined with Thymol and other germ killing antiseptics. Pour a few drops into the small vest pocket hyomei inhaler and breathe it into the lungs over the inflamed membrane infested with catarrh germs.

It is pleasant to use—it kills the germs, soothes the sore membrane, and cures catarrh; if it doesn't your money back.

A bottle of Hyomei costs 50 cents at druggists everywhere and at B. L. Middleton's. A complete outfit, which includes a bottle of Hyomei and a hand rubber inhaler and simple instructions for use costs \$1.00.

Very Good Here.

Danville and Stanford are at war with the East Tennessee Telephone Co., and will fight the octopus to the last ditch for supremacy. Richmond has had but little trouble with this trust, but the people of Madison will not stand for gouging methods. The Board of Supervisors will make a good move if they will look into the figures carefully which represent the assessment of this company in Madison.
